

IMPACT OVERVIEW: IMAGINE NO MALARIA (INM)

395,000 people die of malaria in Africa every year.

Since the launch of INM, global mortality rates have fallen by 60%.

When we began INM, a child in Africa died from malaria every 30 seconds. Now, we lose a child every 2 min. This gives reason to continue the fight.

It is estimated that the global effort to fight malaria has saved 6.8 million Lives since 2001.

Together, we have provided over 4 million life-saving bed nets.

INM has treated over 2.7 million people for malaria.

INM has trained over 12,000 community health workers.

INM provides support for 300 health clinics in Africa.

Since 2013, the Susquehanna Conference of the UMC has raised over \$700,000 for Bishop's Partners in Mission. 100% of monies donated go toward Imagine No Malaria and to reducing the debt of Mission Central.

Thank you for your generous and sacrificial support!

"Thank you for your partnership in mission. We are 'Better Together' when we labor as one to make a difference for countless people in need in our community and in the world."

IMPACT OVERVIEW: MISSION CENTRAL (MC)

MC connects God's resources with human need.

MC is active in disaster response, mission outreach, and mission education.

MC sends out resources worth over \$7.5 million every year to people in need locally, nationally, and globally.

Typically, 65% of these resources have remained within Pennsylvania.

MC's work is carried out by a small staff and 7,000 volunteers.

MC responds to local, regional, national, and global disasters.

MC operates completely on donations of time, money, and resources.

MC provides mission education and support to churches.
